Dear All

**RE: REYNO DAWID DE BEER V ELECTORAL COMMISSION OF SOUTH AFRICA
AND OTHERS: 0027/24EC**

Electoral Court hereby issues the following directives in the aforementioned application:

The complainant is requested to file a document with the court clarifying the following issues:

1. Is there any document in the African Commission process which is relevant to his complaint which he has not already provided to this court? If there is, please will he provide it, and if it has to be dealt with confidentially to identify which document is confidential and why.
2. It appears that the core of his complaint that the commissioners did not, through the Commission, publicize the African Commission process when they became aware of it, and that this had an adverse impact on the freedom and fairness of the elections. Is this a correct characterization? If not, he is invited to provide, in a single paragraph, a correct characterization of the complaint.
3. The Court reserves the right to dispose of this matter on the papers without referral to oral hearing.
4. ~~Further directives will be issued, if necessary.~~

C. de Wee
